

## Assignment 2 Part 2: 5 Marks

Marks: 5 Marks

Task:

1. Select a Dataset: Choose a dataset from the denguedatahub package. You can find more details about denguedatahub at: <https://denguedatahub.netlify.app/>
2. Create a Visualization: Using the selected dataset, create a single, well-designed chart that best represents the data.
3. Interpretation: Write a detailed interpretation of the chart, explaining the key insights, patterns, or trends observed in the dataset.

Deadline: August 5, 2024
